

How do I prepare the area to be painted?

1. Prepare the area to be painted. It must be clean! Paint will not adhere to a dirty surface!
 - *Sweep a couple of days before*
 - *Power wash the area to clear it of all debris*
 - *Sweep or blow the day of (brooms need to be available)*
2. Identify a paint station location (Consult the principal/custodian)
 - *Near or at a water source (water key, faucet with a hose!)*
 - *Ability to wash paint brushes – we just threw ours away... buy cheap!*
3. Determine where you will paint your stencils before your paint day

Organize Your Paint Day!

1. Set up a check-in table
2. Make a sign-in sheet for volunteers
3. Provide the instructions for painting the stencils that were provided in your kit.
 - *Make copies of the instructions for each stencil you are painting to make it easier on your paint volunteers*
4. Assign volunteers to the stencils
5. Set up the paint station before painters arrive
6. Use a drop cloth
7. Turn on water (key) (hose with a spray nozzle is best)
8. Organize paint containers and open lids (but keep the lid lightly on)
9. Organize brushes
 - *One idea is to turn a milk crate upside down and place the brushes in the slots. Do this for clean and dirty brushes*
10. Manage the process
 - *Ensure that you or one other person is overseeing the entire effort*
 - *Always look for areas that need help and assign volunteers to the cleaning station as needed*

How do I paint the stencils?

1. Prepare the area to be painted. It must be clean! Paint will not adhere to a dirty surface!
 - *Sweep a couple of days before*
 - *Power wash the area to clear it of all debris*
 - *Sweep or blow the day of (brooms need to be available)*
2. Identify a paint station location (Consult the principal/custodian)
 - *Near or at a water source (water key, faucet with a hose!)*
 - *Ability to wash paint brushes – we just threw ours away... buy cheap!*
3. Determine where you will paint your stencils before your paint day

What do I need?

1. A plan as to where the stencils will be placed
2. Buy-in from principal/staff/administration, etc.
3. Volunteers or staff to help you paint – REMIND THEM **“LESS PAINT IS BEST”**
4. Stencils
5. Paint and Supplies
6. Paint day set and organized
7. Volunteers assigned
8. A camera to take lots of pictures! Esp. before and after
